Issue: #12B

December 9/2009

Da-Lite Joe Kane Productions Affinity Screen Wins best of 2009 CE PRO Award.

Da-Lite JKP Screens provide a winning image!

JKP Affinity screens are being consistently recognized as producing the best images. The unique features include minimizing the surface architecture to dramatically reduce light spray and color shift. They are now available in both .6 and .9 gain surfaces and a wide variety of screen designs 3 frames, masking frames, and two electric screen configurations.

Monitor Audio High Performance 300 Series Speakers

18 degrees of pivot directs sound precisely to your client's favorite seat

At the heart of the 300 series LCR speaker models [C380-LCR in-ceiling and W380-LCR in-wall] is a unique Inverted Dual Concentric pivoting mid-range/tweeter module providing up to 18 degrees of play. The LCR's can be discreetly positioned, and then the sound can be directed into the desired listening zone by pivoting the IDC® driver module to maximize performance. The 300 series LCR's are a true 3-way main speaker featuring a pivoting IDC® 4 inch mid-range/1-inch tweeter module, and an 8-inch C-CAM® bass driver with RST®, providing higher power handling and output, and deeper bass response than the 300 series LCR speakers.

Add the C380-FX surround speaker system - a 3-driver, 2-way speaker featuring dual 1-inch C-CAM® tweeters, and a 8 inch C-CAM® bass driver featuring RST®. The

C380-FX can be configured to deliver direct or diffuse surround-sound effects via front-mounted switch or alternatively using the 12 volt trigger found on high-end AV amplifiers.
