JSP Industries, manufacturers of fine audio video furniture, have announced the introduction of the new Opera Credenza. This exciting new product shares the lines of the popular Serenade Credenza but is downsized to allow placement on shorter wall spaces. It is 56" wide, 24" deep, and 33 1/2" high. With ample storage and all of the popular JSP features, this heirloom quality credenza will find it's way into many of your client's homes.

## What's NEW at Sonance iPort?

### The New IW-20, IW-21, IW-22

Sonance is happy to announce the newest members of the iPort family, the IW-20, IW-21, and IW-22. These models are compatible with iPhone 3G, iPod touch, and most iPod models.

- ~ IW-20 delivers local-zone unbalanced audio
- ~ IW-21's built-in preamp allows variable volume control via IR or the iPod's volume control
- ~ IW-22 has integrated RS-232 control to enable 2-way communication and control of the iPod or iPhone via compatible control systems

Full specifications will be available soon.

The new models will begin shipping mid-June!
